Calendar

From the workshop to the carton

Field : Tomatoes harvested when ripe · **Drying** : In the sun, from June to mid-August · **Shipping** : 10 kg cartons, refrigerated truck

Frequently asked questions

What is the minimum quantity?

One pallet on the consolidation platform; one full container in direct sale. For private label, the minimum depends on the format and is set in the quote.

Can you send samples?

Yes, before a first order or to develop a recipe. The shipping conditions are specified in the quote.

What delivery terms?

EXW ex workshop, FOB from a Tunisian port, CFR, CIF or DAP: you state your preference at step 2 of the quote request.

What lead times?

The quote gives the possible shipping date; it depends on the format, the volumes and, for private label, on the approval of the pilot batch.

How is traceability ensured?

Every unit carries a lot number that refers to the raw material and the production date.
